*Building Iraq has been our
Mission*

*We offer local experience to the
world, and bring world experience*

At **Danube Engineering & General Contracting**, a Major Engineering and Construction Company in Iraq, we have been participating in building our country since 1989. With our qualified and experienced staff in Design, Surveying, Engineering, Construction, and Consulting, we have been able to execute large numbers of projects with domestic and foreign Clients. For details, see **Danube Engineering & General Contracting**.

At *Danube Demining & UXO Clearance*, we use our extensive experience in Assessment, Surveying, Searching, Demining and UXO Clearance for humanitarian non military purpose. The Danube experts have been well trained to Demolish Old Buildings, Blasting for Roads and Tunnels and in Mining. We are also dedicated to make our land cleaner a safer environment for development by clearing from mines and UXOs left behind by long years of many wars. We use the latest techniques to remove all risks. For details, see *Danube Demining & UXO Clearance*.

At **Seine Trading & Commercial Agencies**, we encourage trading movement to serve our national economy and to achieve development

of Iraqi economy, Export of Iraqi products, Import and marketing services for foreign products through company saloons and adequate network all-around Iraq. For details, see **Seine Trading & Commercial Agencies.**
