# Blue Hackle

---

## **Blue Hackle is unique**

We are the only UK private security company to use the military anti-terrorist methods and skills developed post 9/11. This means we can operate with maximum safety and efficiency to meet your company's objectives. Our people are of the highest standard: trained and experienced former Special Air Service (SAS) and other specialists in hostile environment security. We are a market leader in Iraq and also have a strong presence in Afghanistan.

# Approach

---

## **We never forget that our job is to enable you to do yours**

We understand business. Our clients are multi-national companies who share the same goal: to achieve their aims as clearly and effectively as possible by minimising the risks and overcoming the challenges of the environment.

We work at maintaining solid relationships with the local population and this is a key element of our successful strategy.

We maintain a low profile, backed up by the highest quality resources in terms of planning, people and equipment.

# Services

## We go the extra mile:

### Personal Security Detail (PSD)

- PSD teams travel countrywide or maintain an on-site escort
- PSD teams contracted long term or on a standby/ad hoc basis

### Close Protection

- Individual close protection officers, short or long term  
We use Expat and Local National personnel, all highly trained, vetted and experienced. We blend in with the local population while giving you the highest level of security.

### Asset Protection

- Static Guard, Manned Guarding, Force Protection  
Large or small guard forces for major sites, corporate office compounds and residences, countrywide. We use highly trained and fully equipped Local Nationals or Third country Nationals (e.g. Gurkhas and Filipinos) managed by Western professionals.
- ESD (Explosive Search Dog) teams

### Payroll Delivery

- Low visibility, efficient solutions for corporations or government agencies with cash payroll commitments anywhere in Iraq

## **Security Consultancy**

---

- Outsourced Security Management  
If you do not have an in-house security manager or department, we will provide highly experienced, mature security managers to produce and manage Standard Operating Procedures (SOPs) for in-country executives.
- Evacuation Planning

## **Security Reviews and Site Surveys**

---

- Full security reviews for accommodation and offices across the country
- Site surveys to assist with business proposals and tenders
- Quality Assurance advice on existing suppliers
- Logistics Planning

## **Training**

---

- Pre-deployment to a hostile environment
- SOP training (this can be done in-country)
- In-house training school

## **Life Support Service**

---

- Pre-deployment planning
- Provision of secure accommodation
- Access badges
- Accommodation management

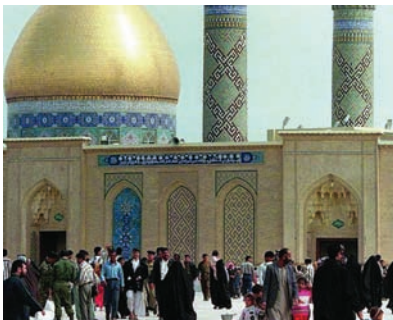

# Client Partnership

---

## **We deliver to the highest standard because we:**

- Help you meet your deadlines by making use of our knowledge of the country and its people. We are available to discuss your needs, in any area, on a daily basis.
- Constantly think ahead, re-evaluate the threat and thoroughly plan all operations.
- Understand that close co-operation with the local population is crucial, so we employ a high ratio of Local Nationals. This means that loyalty is at a premium.
- Liaise with the relevant military authorities to make movements throughout the country as simple as possible.
- Remain positive and proactive, but always flexible so that we can respond quickly whenever the need arises.

# Client Testimonials

---

**... teams are manned by outstanding individuals ... Blue Hackle's approach to security has been second to none.**

**Outstanding ... all of our personnel who have travelled with Blue Hackle have felt completely secure while doing so.**

**Extraordinary professionalism ... Blue Hackle stands out as my preferred security company.**

**Blue Hackle demonstrates regularly a willingness to go above and beyond the call of duty.**

**I am convinced that the operational concept developed by Blue Hackle was what allowed this project to be the first of its type to be completed in Fallujah.**

Full testimonials from these clients are available on request.
