

PSV was founded to address the three most important consumer demands:

- security
- value for money
- quick delivery

The PSV Conversions are designed, manufactured and sold from three locations in Germany and one in England. Every location has several years of experience in armored cars business and production. The PSV Headquarter is located 10 km north of Bremen. Here you can find directly next to the armored cars manufacturing the 1000 m² Spare Parts and Accessories Warehouse.

We offer today a Online-Shop for Spare Parts and Accessories for all kinds and types of armored vehicles regardless of the manufacturer including Service and Repair Facilities.

You can also advertise your used or new armored stock vehicles at our stocklist or search for interesting immediately available units.

Today PSV offers the following services:
